

Homework Assignment 6

Due at the beginning of the class on Thursday, November 11, 2004.

- Read through chapter 9 of the book.
- Exercises from page 261 of book: 9.1 and 9.2.

Homework Policies: You may study together in small groups and discuss ideas about the homework problems before composing the solutions. You are expected, however, to write the solutions yourselves and not *copy* them from other students or sources (e.g. answers in book) nor share your solutions with other students. If you have worked closely with other students on particular problems, then you must mention the names of the people you have worked with and also the problems on which you worked together.
