CMPE 12L Paired Programming Form

One form must be filled out completely for each pair, for each lab on which paired programming is allowed.

By signing this form, you agree to the following.

1. You will only work on the lab assignment to which this form pertains while both of you are sitting together at one computer. You may not work alone on the lab assignment. If your partner does not come to lab, you may not do any work.
2. You are enrolled in, and will attend, the same lab section.
3. You will not discuss the lab with other student, past or present, aside from your partner.
4. You will take turns typing, unless a handicap prevents one of you from typing.
5. You will explain to each other all material produced. You must both be able to reproduce all material (think exams, checkoffs, interviews, write-ups).
6. You must write lab write-ups independently of each other. The lab write-up is the only part of the assignment that you do alone, and you must do it alone.
7. You must both submit an individual write-up in addition to an identical copy of the lab assignment (i.e., source code or other deliverable) into the course locker by the deadline.

By accepting this form, your tutor and/or TA(s) agree to the following.

1. The collaboration is intentional and approved.
2. It will be verified that the partner pair is working together for the entirety of the lab, either through taking roll or through visual inspection.
3. The partner pair will receive the same grade on the lab assignment.
4. Write-ups will be graded separately as independent work.
