In this thrilling competition, teams from UCSC's Mechatronics course will pit their autonomous robots against each other in an epic SLUG WARS: The Last Slug-I. Each robotic champion will attempt to locate three enemy AT-M6's, destroy them with their ping-pong ball ammo! With all three destroyed, the final target will illuminate and a precision shot is required to destroy the Kylo Ren Ship and end the match! The champions will compete in a wild head to head tournament, until one robot emerges victorious! The Public is welcome!
