Chapter 6: Loops

Iterative operations: perform same set of operations repeatedly.

Will study 2 kinds of loops:
- While
- for loop
- do-while.
while loop:

```
while (condition) {
    loop body
}
```

- If loop body is just one statement, then `if` or `for` are optional.
- Still indent consistently.

Ex. loop 1

Ex. Loop 1 Dynamic Day
