1. Installing

Copy the Bum Dreams folder to your applications folder.

Double-click Bum Dreams 1.01.exe.

Be warned, loading takes a while, be patient.

2. Story

In Bum Dreams you take on the role of Bubba the bum. You are striving to find a place to sleep in the park so that you can escape into dreamland. Your dreams revolve around what it would be like to be rich. The police prefer that you don’t sleep on the park benches and look for opportunities to get rid of you. If only you could realize your dreams...
3. How to play

Take control of the bum character and explore the park. Dialogue boxes will guide you through all the necessary controls when playing the game, but here is all the info again.

Controls:

Mainly use the arrow keys and space bar. The arrow keys move your character around the park and the space bar will interact with benches. During the mini-games the arrow keys move and the space bar shoots when appropriate. Cut scenes are shown in between levels, pressing a button will skip them.

Goals:

To complete the mini-games without dying and get a decent score.

Score percentage is shown at the end of each level.

Winning:

Win by completing both mini-games and see what happens afterwards!
4. Credits

All original artwork by Matt Folsom.

Music:

“Toccata and Fugue in D minor” - J.S. Bach

“Ping Island” - Mark Mothersbaugh (From The Life Aquatic Soundtrack)

Theme from Taito’s Jungle Hunt

“Money” - Performed by John Lennon
