Project 1: Book Review (Due April 20, Wednesday)

1. **Decide on one of the 16 books to review (in class on Wednesday, April 6).** Decide on a teammate with whom you will review the book. Borrow the book at the end of the class. Ideally, everyone chooses a different book. There are 16 books and 32 students. If you strongly feel that you would like to review the same book as another team, you will have to find the book quickly yourself (either at library, or at local bookshops, or through online retailers). Please make sure that the teaching assistant has recorded your and your teammates names for the book that you will be reviewing.

   If you would like to review a book different than the ones listed, you need instructors’ permission. Please let the instructor know as soon as possible via email stating the reasons why.

2. Your team will be making a powerpoint (ppt) presentation in class in about 2 weeks time on April 20 (Wednesday) or earlier on April 18 (Monday). Please plan to present approx. 10 slides for about 8 minutes allowing about 2 minutes for Q&A.

3. Each individual will be required to submit a written 1 page review of the book including a brief summary in their own words and your perspective on the book on April 20, Wednesday, at the beginning of the class.
