• **Course:** System Programming

• **Time & Place:** Mondays and Wednesdays, 5:00pm-6:45pm, Soc. Sci. 2, Room 167.

• **Discussion/Lab Sections:**

• **Time & Place:** tbd

• **Instructor:** Dean Bailey; Office: E2-249B; phone: 459-1339, e-mail: dbailey@soe.ucsc.edu
  Office Hours: Tuesdays 2:00pm-3:30pm and by appointment.

• **Goal:** To cover most of the material contained in Chapters 1 through 15.

• **Syllabus:** The chapter headings are a tentative syllabus for the course:
  
  Introduction  
  UNIX Standardization and Implementations  
  File I/O  
  Files and Directories  
  Standard I/O Library  
  System Data Files and Information  
  Environment of a UNIX Process  
  Process Control  
  Process Relationships  
  Signals  
  Terminal I/O  
  Advanced I/O  
  Daemon Processes  
  Interprocess Communication  
  Advanced Interprocess Communication

• **Evaluation:** The course work will be weighted as follows:
  
  Final Examination  
  One Midterm Examination  
  Programming Assignments  
  Home Work Assignments  
  
  40%  
  30%  
  30%  

A passing grade is required in all four of these categories to pass the course.

• **Examination Schedule:**
  
  1. Final Examination, Monday, June 12, 2006, 4:00pm-7:00pm.
  2. Midterm Examination, Monday, May 8, 2006, 5:00pm-6:10pm

  The examination schedule is fixed. In particular, requests for changes in the schedule will not be accommodated; if you have conflicts with this schedule, please do not enroll in the class. Also, no time extension will be given for late arrivals on examination days.

• **Academic Integrity:**
  
  – No form of academic dishonesty will be tolerated.
- You are encouraged to discuss the course material and concepts with other students in the class. However, all work that you submit must be your own. Under no circumstances may you look at anyone else's code or show anyone else your code. And while you may discuss the concepts and techniques used in the programming assignments, you may not discuss implementation details of the assignments themselves.

- Incidents of academic dishonesty will be reported according to UCSC's policy on academic integrity, the full text of which can be found at http://casa.ucsc.edu/avcue/integrity

- Specifically for this class, if you are caught turning in work as your own, that is not solely your own, or assisting others in doing so, a formal written report will be sent to your Department, the School of Engineering, and to your Provost and academic preceptor. Furthermore you will get a failing grade for the course and the incident will be noted in your evaluation.

**Other interesting textbooks, NOT required:**

- *Advanced UNIX Programming, 2ed.*, by Marc J. Rochkind.
