Notice about lab sections and registration

EE 103 lab will have 3 sections this spring 2010. Section 1 is Wed 11-2, section 2 is Wed 3:30 – 6:30, in room BE 150. The 3rd section is closed until class starts. At the first class, those of you who cannot attend either of the sections 1 or 2 will gather with me just after class and we will find a time that everyone who wants to can attend. This may be very inconvenient for you, e.g., Saturday morning if necessary, to satisfy everyone eligible, so I recommend getting into one of the sections 1 or 2. But lab class size is limited to 20 students due to equipment shortage for each section, so register quickly to get your first choice.

We will share BE BE 150 with Prof. Liu’s class, this is an additional constraint on the timing.
